Nautilus Waterbaby 15 watermaker

Membrane assembly

Pre filter 5 micron

High pressure pump 12V DC

Feed pump 12V DC

Control unit

Waterbaby 15 modular watermaker

simple, small, rugged, reliable, affordable! -

Designed specially for the ocean cruiser that requires a dependable and simple watermaker.

The Waterbaby 15 from Nautilus Marine - made in United Kingdom and producing approx 15 litres per hour for only 15 amps at 12V DC (8 amps @ 24V DC)

Without doubt the smallest unit for its production available - these units really are game changers for the smaller ocean cruiser that needs fresh water on demand powered by the boats DC system

System comprises:

12V DC compact feed pump

10 inch industry standard 5 micron pre filter assembly

Nautilus PT30 stainless steel high pressure with ceramic piston

Membrane industry standard 21 inch

Stainless steel pressure regulation assembly

Compact control module

Super compact, easy to install, operate and maintain

No proprietary electronics to fail
